

ZOB AIR NAJDAOUI

Full-Stack Developer, Software Engineering Student

✉ zobirnajdaoui@gmail.com  [ilorez](#)  [ilorez](#) [ilorez.dev](#) Morocco, Marrakech

Summary

Full-stack developer with 3+ years of experience delivering impactful web applications. Skilled in MERN stack, TypeScript/JavaScript, Python, and PHP, with hands-on experience building scalable products, APIs, and dashboards. Led and contributed to projects that improved startup efficiency and public-service workflows, with a strong focus on user-centered solutions, performance, and continuous learning.

Education

1337 Coding School <i>Software Engineering / Full-Stack Development</i>	Nov 2024 – Oct 2026 <i>Morocco</i>
UM6P <i>Computer Software Engineering</i>	Sep 2024 – Oct 2026 <i>Morocco</i>
OFPPT <i>Full-Stack Web Development</i>	Jan 2022 – Dec 2024 <i>Morocco</i>

Experience

Jelba.ma — Hackathon Project <i>Full-Stack Developer</i>	Feb 2026 – Feb 2026 <i>Morocco</i>
- Built a full-stack vaccine reminder platform in 3 days using React 19, TypeScript, FastAPI, and PostgreSQL. - Integrated ElevenLabs for Arabic AI voice reminders and Twilio for automated phone calls and SMS. - Implemented multilingual support (Arabic RTL, French, English) and an analytics dashboard with Leaflet and Recharts.	

AlloBaba <i>Software Developer Intern</i>	Jun 2024 – Jul 2024 <i>Marrakesh-Safi, Morocco</i>
- Contributed to development and maintenance of startup web application features. - Collaborated on debugging, code quality improvements, testing, and feature optimization. - Worked in an agile startup workflow and supported production-focused delivery.	

Wilaya of Marrakech-Safi Region <i>Internship</i>	Sep 2023 – Nov 2023 <i>Marrakesh, Morocco</i>
- Supported humanitarian response operations after the Al Haouz earthquake. - Collected and documented critical data and coordinated with local authorities on emergency workflows.	

Projects

Jelba.ma <i>React 19, TypeScript, FastAPI, PostgreSQL, Twilio, ElevenLabs</i>	2026
- Built a full-stack vaccine reminder platform for Moroccan families to track children's vaccination schedules. - Implemented AI-powered Arabic voice reminders and SMS/phone notifications for engagement and follow-up. - Developed an admin dashboard with regional analytics and interactive maps for public-health monitoring.	
Scrapy Platform <i>React, TypeScript, Electron, Python, FastAPI</i>	2024
- Built a web-scraping platform used to automate extraction from multiple public data sources. - Developed a web client and cross-platform desktop app for managing scraping jobs and outputs. - Implemented scalable Python microservices for data collection and processing workflows.	
Kouralink <i>React, Node.js, Express, MongoDB</i>	2024
- Developed a social platform for football communities to create teams, organize matches, and run tournaments. - Implemented core full-stack features, team collaboration flows, and scalable data handling. - Delivered a user-friendly experience for players and team managers across devices.	

Technical Skills

Programming Languages: C, C++, Python, JavaScript, TypeScript, PHP

Frameworks & Libraries: React.js, Next.js, Node.js, FastAPI, Laravel, Redux.js, Tailwind CSS

Databases: PostgreSQL, MongoDB, MySQL

Tools & Methodologies: Git, GitFlow, Docker, Linux, Bash, REST APIs, Agile Development

Languages

Arabic (90%) — English (90%) — French (60%) — Tamazight (10%)
